Social Bookmarking and Tagging with Diigo

Setting up your account

1. Go to <http://www.diigo.com> using Firefox, Safari, or Flock (things don't work so well with Internet Explorer). You will see a page that looks something like this

2. Look in the upper right hand corner; click where it says to **Join Diigo**.

3. You will be brought to a screen that asks you to choose your Username, enter your email address and password, and type in the letters you see in the image as a spam blocker.
4. You will then be told to go to your email to check verify your registration. In the email message, you will see a phrase to **ACTIVATE Now!** Click that phrase. You now are a Diigo member! Oh, yeah!

Install the Diigo Toolbar

5. Go to back to <http://www.diigo.com>. You will stay logged in. Look at the header and click on the Tools link.

6. Click on the button that reads Install Diigo Toolbar, and then follow instructions. You may be asked to allow pop-ups for this site. Allow them.

7. You will be asked to restart your browser. If upon restarting you are not brought back to Diigo, please go back to <http://www.diigo.com>. You will now see a toolbar that looks like this toward the top of your browser:

8. If you are having trouble installing the toolbar, you can install the Diigolet for your browser at: <http://www.diigo.com/tools/diigolet>.

Join the Course Group

To join the course group, go to:

<http://groups.diigo.com/groups/wrt-css-social-bookmarking-list-fall-2008>. Look to the left and click the button that reads “Join Group.” You are now a part of the course group! Yeah!

Social Bookmarking, Describing, and Tagging with Diigo

Social bookmarking and social tagging allow groups of people with similar interests to create a knowledge base for a particular interest area. To bookmark a web page:

1. Find a web page or site that you think that you might be interested in seeing again at *some point in the future*; and/or b) you think others in our information ecology might be interested in seeing it, as well. Once you have found that page, look at your Diigo toolbar and click “Bookmark.”

2. The following window will appear. In this window you can:

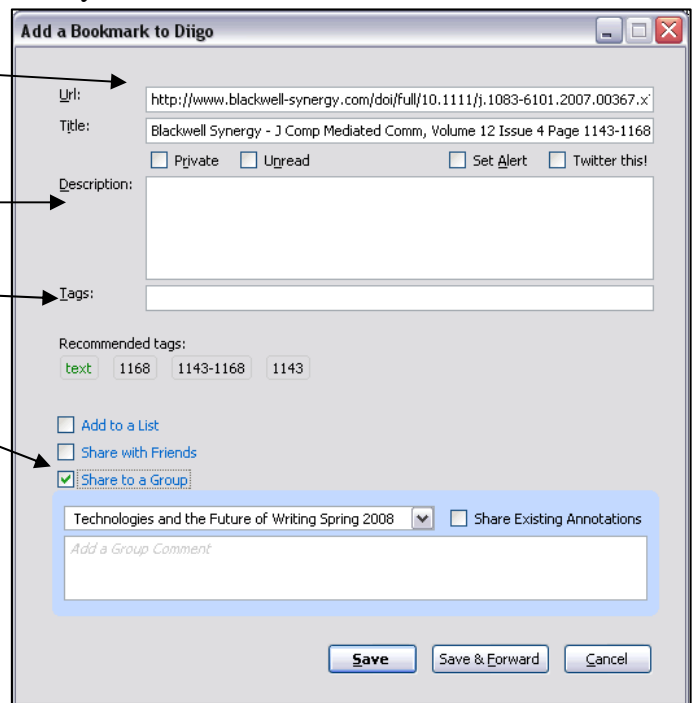

See the URL of web page

See and edit the title of the page

Add your description of the page

Add tags

Select a group to share with

Url:

Title:

Private Unread Set Alert Twitter this!

Description:

Tags:

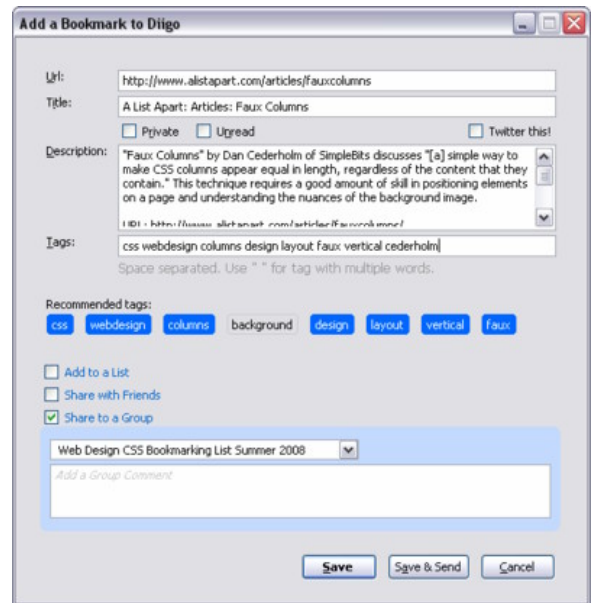

Recommended tags:

Add to a List
 Share with Friends
 Share to a Group

Share Existing Annotations

- After you have entered your description of the page (use <p></p> tags where needed) as requested in the CSS Social Bookmarking List assignment, edited the title to something meaningful for you, added relevant tags, and selected to share with the WRT CSS Bookmarking List Summer 2008 group, press Save.

A second or so after you press Save, the Bookmark icon in your Diigo toolbar will turn from empty to red with a bookmark dangling from it:

- There are a number of ways to see the class's bookmarks so that you are able to use them to enhance your own understanding of CSS.
 - you can click on the My Bookmarks icon in the Diigo toolbar;
 - you can click the down arrow in the Diigo icon and then select My Groups;
 - go directly to <http://groups.diigo.com/groups/wrt-css-social-bookmarking-list-fall-2008/bookmark>

The group's bookmarks page looks like this:

Notice the RSS symbol in the toolbar; you can add this URL to any reader so that you are updated when a new bookmark has been added.

list of bookmarks, the one just added is on top

Click "Expand" to see comments group members have made on web pages
