

If you copy & paste this content, you may need to fix the quotation marks so they are " and not “.

## Make Portfolio Items Side by Side and Add a Border Around Portfolio Items

### **IMPORTANT Do this first!!**

Before adding the below code, in your HTML remove all heights and widths from images so you have only:

```

```

**HTML** (use this as a reference and in combination with the video; yours may look slightly different.

```
<section class="left">

  <header>
    <h3>Required heading</h3>
  </header>

  <figure>
     <!--Note there is no height or width -->
  </figure>

  <p>Required description of the portfolio item.</p>

  <ul>
    <li>Required tech detail</li>
    <li>Required tech detail</li>
    <li>Required tech detail</li>
    <li>Required tech detail</li>
  </ul>

</section> <!-- end left -->

<section class="right">

  <header>
    <h3>Required heading</h3>
  </header>

  <figure>
     <!--Note there is no height or width -->
  </figure>

  <p>Required description of the portfolio item.</p>
```

```
<ul>
  <li>Required tech detail</li>
  <li>Required tech detail</li>
  <li>Required tech detail</li>
  <li>Required tech detail</li>
</ul>
```

```
</section> <!-- end right -->
```

```
<div class="clear"></div> <!-- necessary after the last floated element so
content will appear below it properly -->
```

## CSS

**First, in the main section, make sure your page is styled so margin: auto; will center boxes.**

```
html {
  text-align: center;
  background-color: #ccc;
}
```

**Then, in the computer only section, add the left and right divisions.**

```
section.left {
  float: left;
  width: 48%;
}

section.right {
  float: right;
  width: 48%;
}
```

**Then, in the computer only section, style your image so that it will be in the middle of the divisions you create. Style the width to your tastes.**

```
figure {
  width: 80%;
  margin: auto;
}
```

**Then, in the computer only section, style the image; adjust the border, background, and padding styling to your tastes.**

```
img {
  max-width: 100%;
  background-color: #fff;
  padding: 3px;
  border: 2px solid #000;
}
```
